

FUN SPOT

ONE STOP SHOP SOLUTION

Everything you need to open and manage a high performing leisure park.

2022

SUMMARY

WHO ARE FUN SPOT?

Started in the USA in the 1970's, Fun Spot has made its way up to become a worldwide leader in the design and manufacture of **indoor adventure parks**.

Integrated into the ABEO group in 2018, FUN SPOT is now a **One Stop Shop Solution** that offers a full sportainment portfolio, including trampolines, Clip 'n Climb, , ninja courses, ropes courses, interactive games and much more.

**Fun Spot
in EMEA**

THE CURRENT MARKET

We have seen our market evolve during the last few years, due to technological development and the Covid19 pandemic. With our experience in the market and our up-to-date market studies we are able to say that:

Investors
are looking for a **secure business with growth opportunities to invest in.**

They want to be beneficial to society and to make their visitors happy.

People
want to **stay fit and active while having fun.**

Visitors
are looking for **long-lasting experiences rather than material possessions and are willing to spend more money on them.**

Families
want to **spend more guilt-free time together.**

Parents
are worried their **children are spending too much time online.**

WHY CHOOSE FUN SPOT?

Fun Spot Strengths

Our business is built on the idea that product and service excellence must be a constant pursuit.

We achieve excellence by managing every detail with our customers' needs and goals in mind. This is the philosophy that guides us to create your leisure centre.

One stop shop solution
In-house sportainment expertise to provide you with a limitless portfolio of activities and services

Full customisable solution
Choose from a wide range of colours and the latest technology to personalise your park

EMEA sales team
made up of industry professionals who value a customer driven approach to match your needs

Quality, safety and operational tools
Helping you build and open a safe park with the best quality is our priority

Process

1

BUILDING REQUIREMENTS

- **Site selection and design**
- Overcoming building constraints to meet safety standards
- **Optimised layout** and customer flow

2

BUILDING YOUR DREAM FACILITY

- Working with you to **personalise your arena** and create dedicated graphics boards for a unique design

3

INSTALLATION

- **Installation** technicians
- Completion pack and **maintenance** manual

4

TRAINING

- On-site **training prior** to opening for you and your staff
- **Operational support** with manuals: maintenance, incident management, technical information and duties, management advice

5

CUSTOMER SERVICE AND MAINTENANCE

- Certified service centre
- Yearly **maintenance and upgrade** operations
- Access to **operational tools**

Warranty

Questions & Answers

Many of you contact us in the early stages of your location search. We receive many questions, and we are more than happy to answer them.

?

What is the minimum size and height I need for my multi-activity centre?

The standard building for a multi-activity centre does not exist. It will depend on your needs and resources.

To open a **small size** facility, you will need minimum 300 sqm for it to be profitable. However, for a **big size** centre, you should consider a location with at least 1,300 sqm.

To make a point about the **height clearance**, it will depend on the activity you want. To install trampoline activities, you will need 5.2m. However, for the Clip 'n Climb challenges, you will need 6.5m.

?

How many attractions can I have in a 1000 sqm building?

Having a 1,000+sqm centre will give you the freedom to create a centre that offers a big range of **entertainment for everyone**. For example, you can accommodate a big trampoline area with several of our interactive games, a Clip 'n Climb area with a mix of challenges, and a ninja or ropes course.

?

What is the budget needed to start my park?

The budget needed to start your park will depend on different factors, such as the size of the building, space available, or the activities you would like to install.

To give you an estimate, for a centre to be profitable, it would be a minimum of €150,000.

FULL PARK

TRAMPOLINE ATTRACTIONS

Since 1989, we have been producing colourful and durable trampoline fabrics. This is our core business and we have fully participated in the evolution of this activity over the last decade. That is why we now offer a long list of complementary activities that will allow you to stand out from your competitors.

OUR SAFETY CHECKLIST:

- ✓ Our products and facilities are certified to **ASTM F2970-17** and **BS PAS 5000-2017** standards.
- ✓ We provide checklists for routine inspections.
- ✓ To ensure staff readiness, we provide a comprehensive training service.
- ✓ An annual maintenance contract is the best way to ensure quality and safety.

CORE ACTIVITIES

CORE ACTIVITIES

MAIN COURT

The Main Court within any trampoline park is the core zone where visitors develop their skills and enjoy discovering the different options trampolining can offer.

Key features:

- 100% customizable, regardless of the columns we can design the main court anyway you like!
- A good size is 1/3 of the park.
- Note that curved wrap up mats can be used for angled walls.

Technical info:

Capacity per hour

150 jumpers

Staff required

1 monitor / 32 jumpers

Minimum ceiling height

5.2 m

Minimum area

+ 65 sqm

How to customise it?

3 main court examples:

There are countless possibilities to create your own arena. The most important thing is to think about your target and how big you want the area to be.

Here are some examples to give you some ideas.

SMALL
starting at 65sqm

Capacity	8 at the same time
Number of features	Angled wall Long lane Jump boxes Mini cube
Minimum area	+ 65 sqm
Budget	350€ / sqm

Capacity	35 at the same time
Number of features	Angled wall Long lane Jump boxes Flip & Run Mini cubes Slide trampoline Wrap up trampoline
Minimum area	+ 300 sqm
Budget	350€ / sqm

MEDIUM
over 300sqm

Capacity	70 at the same time
Number of features	Angled wall Long lane Jump boxes Flip & Run Mini cubes Slide trampoline Wrap up trampoline
Minimum area	+ 550 sqm
Budget	350€ / sqm

BIG
over 550sqm

Our features:

CORE ACTIVITIES

DODGEBALL

Featuring middle ramp-up surfaces and multiple styles, Xtreme Dodgeball supports mega-active play in a safe and visually stimulating space that is totally customisable to your brand and architecture.

Key features:

- Everything is custom, we design your dodgeball court to maximise your space
- Open view with no high angle walls, which allows spectators to observe multiple games at one time

Technical info:

Capacity per hour	270 jumpers
Staff required	1 monitor shared with other attractions
Minimum ceiling height	5.2 m
Minimum area	160 sqm

How to customise it?

Colour Customisation of all the materials
(see p.29)

Glow under UV light colours

Create your own graphics with our design team
(E.g.: Your logo printed all around the arena)

CORE ACTIVITIES

PERFORMANCE TRAMPOLINE

Great addition to the main court, a performance Wall will provide your visitors extra bounce and power to perform tricks.

Key features:

- The Performance Trampoline is specially designed to give the jumper more bounce power, propelling him into the air and up the wall of «walk-the-wall».
- Adapted for a more experienced jumper to perform exciting tricks (on and off the wall)
- This is a very popular attraction because of the freedom it gives jumpers to hone their skills.

Technical info :

Capacity per hour	20 jumpers
Staff required	1 monitor shared with other attractions
Minimum ceiling height	7 m
Minimum area	30 sqm

How to customise it?

Colour Customisation of all the materials (see p.29)

Glow under UV light colours

Create your own graphics with our design team (E.g.: Your logo printed all around the arena)

CORE ACTIVITIES

THE SURVIVOR

Try jumping over the rotating inflatable arm as the speed slowly increases! The patented attraction has earned its place as our most popular attraction. On-going innovation means it just keeps getting better.

Key features:

- The speed control of the inflatable arm can be managed easily by the operator from a control box.
- To make sure safety is 100% controlled, whenever the arm makes contact, the clutch engages and prevents hard knocks.

Technical info:

Capacity per hour	80 jumpers
Staff required	Monitor shared with other attractions
Minimum ceiling height	5.2 m
Minimum area	48 sqm

How to customise it?

Colour Customisation of all the materials
(see p.29)

Glow under UV light colours

Create your own graphics with our design team
(E.g.: Your logo printed all around the arena)

CORE ACTIVITIES

KID'S COURT

Provide little kids with a memorable, magical, and fun experience with Kid's Court. It is safely designed to develop and engage little brains and bodies.

Key features:

- We design your Kid's court to maximise your space and to make sure a parent or guardian remains present or can even sit close and participate.
- We suggest including an overflowing foam pit to add extra fun to the court and offer an intermediate activity for the ones who cannot jump yet!

Technical info:

Capacity per hour	120 jumpers
Staff required	1 monitor / 32 jumpers
Minimum ceiling height	5.2 m
Minimum area	50 sqm

Our features:

CORE ACTIVITIES

BASKETBALL COURT

This is a must-have in an essential trampoline park package. Each lane allows for high flying fun as you try to practice your hardwood skills on trampolines.

Key features:

- Engineered to withstand commercial grade use so that children can hang off hoops
- If the space allows it, we recommend having a 2 lanes set with different heights to fit any age.
- It can be fitted with a hydraulic post that moves up and down
- It is a perfect combination with Dodgeball and Kid's court

Technical info:

Capacity per hour	120 jumpers / lane
Staff required	1 monitor shared with other attractions
Minimum ceiling height	5.2 m
Minimum area	14.5 sqm

How to customise it?

Colour Customisation of all the materials (see p.29)

Glow under UV light colours

Create your own graphics with our design team (E.g.: Your logo printed all around the arena)

CORE ACTIVITIES

PIT ACTIVITIES

Another essential feature of a trampoline park is the Air Bag area or Foam Pit. This area remains the most popular attraction within a trampoline park because it is something that allows you to go crazy and that you will not find at home.

Key features:

- Flooring options: Airbag and foam pit.
- All materials have been chosen to make sure all the activity options are 100% safe
- Frame options: Stand alones and Multi pit event (see examples on the next pages)
- Featured partners: Big Air Bag

Technical info:

Capacity per hour	Foam cubes: 150 Air bag: 200
Staff required	1 monitor shared with other attractions
Minimum ceiling height	5.2 m
Minimum area	80 sqm

How to customise it?

CORE ACTIVITIES

PARKOUR OVER TRAMPO

Give your guests the opportunity to learn the art of moving. Beginners will be able to start out without fear and the more advanced will have the opportunity to try new tricks without risk.

Key features:

- Parkour steps (2 options)
- Padded block in different sizes
- Perfect combined with Ninja Course

Technical info:

Capacity per hour	120 jumpers
Staff required	1 monitor shared with other attractions
Minimum ceiling height	5.20 m
Minimum area	20 sqm

(E.g.: Your logo printed on the backboard)

INTERACTIVE GAMES

Partnering with the best, we are able to offer you a wide range of interactive games to take your trampoline activities to the next level.

INTERACTIVE GAMES VALOJUMP

Turn your guests into superheroes with a fully automated interactive game. Your guests can select the level of difficulty and the game.

Technical info:

Capacity per hour	20 jumpers
Minimum area	24 sqm
Flooring options	trampoline or airtrack

INTERACTIVE GAMES AEROSTRIKE

Perfect for 1v1 duels, challenging players' stamina, timing and accuracy. Players compete to score the most points in 2 minutes.

Technical info:

Capacity per hour	40 jumpers
Minimum area	16 sqm

INTERACTIVE GAMES REACTION WALLS

rugged. interactive

Individually or in a competitive mode, the players will score points with every correct hit, testing their reaction speed, visual alertness, hand-eye coordination and jumping accuracy.

Technical info:

Capacity per hour 40 jumpers

Minimum area 16 sqm

Flooring options trampoline or airtrack

FREESTYLE DUO

HIGH-9!

INTERACTIVE GAMES WALLRIDER

rugged. interactive

With 3 different game programs, WallRider is a great way to introduce Walk-the-Wall to new users, and add an extra element of challenge for the regulars.

Technical info:

Capacity per hour 20 jumpers

Minimum area 18 sqm

INTERACTIVE GAMES SELFIECAM

rugged. interactive

Guests can record their tricks, check it out on-screen and share it online! The last 8 recorded clips will remain on screens around the park.

Technical info:

Capacity per hour 24 jumpers

Minimum area 9 sqm

TRAMPOLINE COLOUR CUSTOMISATION

clip 'n climb®

INTERNATIONAL

Take advantage of the height of your ceiling by proposing different types of fun climbing challenges that will appeal to young and old alike with the market leader in Fun Climbing.

Clip 'n Climb is the creator and the market leader in the Fun Climbing industry! With over 50 unique climbing Challenges designed to stimulate several senses simultaneously, Clip 'n Climb is for everyone from 4 years upwards, regardless of climbing level.

CLIP 'N CLIMB SAFETY IS EVERYTHING

Safety is our watchword at Clip 'n Climb, and all our Challenges are designed to be hazard-free. We extensively test them before adding them to our range. We have developed safety devices and procedures to improve safety and reduce staffing costs without neglecting the visitor experience:

Trublue

The best auto belay system available on the market for complete peace of mind for climbers and operators.

Belaymate

A clipping device to eliminate the risks of wrong attachment. The Challenge is only accessible once the climber is perfectly attached. It allows climbers to be more independent.

Safety flooring

Even if there is no specific regulation, we insist on providing you with safety surface to attenuate any impacts.

Articulated Mats

Created to control access to the Challenge, it signals its use and warns participants there is a climber above.

Technical info:

Capacity	Staff required	Minimum ceiling height	Minimum area
1,3 person / climbing line	1 monitor / 12 climbers	6.4 m	8.5 sqm / challenge

CLIP 'N CLIMB OUR CHALLENGES

With 3 exciting ranges and over 50 different Clip 'n Climb Challenges available in funky contemporary colours, Clip 'n Climb has huge appeal regardless of age or aptitude.

BOULDERING

The most effective climbing wall to incorporate into your park is the bouldering wall, which we can also modify to make a traverse wall. The height is limited so guests do not have to wear harnesses. Easy to do, this activity will suit all your customers.

Technical info:

Capacity	1 climber (climbing line) every 90cm
Staff required	1 monitor / 12 climbers
Min ceiling height	2.5 m
Minimum area	18 sqm

CLIP 'N CLIMB MARKETING SUPPORT

As a member of our Clip 'n Climb global community, investors benefit from direct access to a full support plan from your project building to equipment and maintenance. A dedicated extranet is at your disposal to connect with Clip 'n Climb owners to share tips, ask for recommendations and download all the materials.

Brand support:

- Brand Licensing
- Brand Guidelines and Social Media Guidelines
- Tools:
 - Collaterals: climbing passes, loyalty cards, posters...
 - Website and booking system (Our online booking system has proven extremely popular with users)
 - Proven marketing strategies and tips

Support before, during and after sales can be managed on a local basis.

2 adventure zone examples:

From 3 Challenges up to more than 50 lines, the possibilities are infinite to create your Clip 'n Climb area.

Here are some examples to give you some ideas:

CORNER

Example configuration

- 7 challenges
- 7 lines
- 12 climbers

Big Cheese | Checkerplate
Pixetron | Cloud 9 | Dry Ice
Stairway to Heaven

7,9m x 7,9m = 62 m²
Available ceiling height = 8m

STAND-ALONE

Example configuration

- 8 challenges
- 11 lines
- 22 climbers

Big Cheese | Face to Face
Twister | Aliens with lights
Dry Ice | Stairway to Heaven
Pixetron | Leap of Faith

12,7m x 16,4m = 208 m²
Available ceiling height = 8m

NINJA COURSES

Inspired by the popular TV Show «American Ninja Warrior», our customised courses are built to give everyone a similar experience, no matter their age!

OUR SAFETY CHECKLIST:

- ✓ Our products and facilities are certified to **EN 1176-1(2017) + 1177 (floor)**
- ✓ We provide checklists for routine inspections.
- ✓ To ensure staff readiness, we provide a comprehensive training service.
- ✓ An annual maintenance contract is the best way to ensure quality and safety.

Key features:

- Metal tube structure or Aluminium trussing
- Half section available
- Sold by unit
- Different exits possible: fireman post, ladder, airbag
- Different types of landing surfaces: **foam cubes, airbag, crash pads.**
- 2 different types of height:
 - Ground based course over a foam pad. This is the only course available for the upper deck course.
 - Elevated course over an air-bag or a foam pit

Technical info:

Capacity	Staff required	Minimum ceiling height	Minimum area
120 players	1 monitor shared with other attractions	4.4 m	20 sqm / section

INTERACTIVE GAMES

INTERACTIVE GAMES **VALOCLIMB**

Thanks to our partners Valo Motion, we are able to offer you the most advanced augmented climbing wall: Valo Climb. It merges the idea of video game play with physical fitness. This technology makes the fun endless for all your guests.

Technical info:

Capacity per hour	Staff required	Min. ceiling height	Minimum area
20 players	1 monitor shared with other attractions	2.5 m	19 sqm

INTERACTIVE GAMES VALOARENA

Playing together with a group of friends is the most fun and rewarding way to be active. To answer the need for more social and fun interaction, our partner Valo Motion has created ValoArena, an active exhilarating gaming experience for groups!

Key features:

- An unattended 6-player mixed-reality playground that offers high throughput with no wearable headsets and no wires.
- The games offer activities and social fun for people with diverse skill levels and ages.
- The games are 3 to 5 minute long, and are meant for the whole family.
- Players simply walk in, choose between multiple games, and then play.

Technical info:

Capacity per hour	Staff required	Min. ceiling height	Minimum area
72 players	none	3.1 m	64 sqm

INTERACTIVE GAMES

TRAILBLAZER

rugged. interactive

Players will be able to test their agility, scoring points by pressing the illuminated grips as they climb the easy-to-hold grips and comfortable foot-holes for trampoline socks. Can be played individually or up to 8 players at a time!

Technical info:

Capacity per hour 20 players

Staff required 1 monitor shared with other attractions

Min. ceiling height 2.5 m

Minimum area 20 sqm

INTERACTIVE GAMES

POWERPLAY

rugged. interactive

With its flashing targets, exciting sound effects and fast-paced gameplay, PowerPlay is perfect for team games. Featuring electronic scoreboards tracking each goal scored and displaying the winning team and with a one-touch start button to launch the 4-minute game, it is easy to use.

Technical info:

Capacity per hour 40 players

Staff required 1 monitor

Min ceiling height 7.3 m

Minimum area 40 sqm

INTERACTIVE GAMES AGENT FACTORY

Agent Factory is a new and groundbreaking entertainment game for groups. A team will challenge themselves in a series of interactive tasks that combine fitness, observation, action and handiness!

Inside the game, teams can choose difficulty, see their time remaining, win/lose messages.

Outside the missions, the players can see the game objectives, statics and real-time availability.

Technical info:

Capacity	Staff required	Target group	Minimum number of missions
70-90 players	For 20 rooms: 2-3 game masters + 1 receptionist	9 - 60+ years old Team building Birthday parties	10

ADVENTURE PARK EXAMPLES

Wondering what your park can look like regarding your building size and budget? Have a look at some examples below.

Adventure park – 20m x 20m

- 01 Main Court
- 02 Air Bag
- 03 Ninja course
-  Clip 'n climb

Info:

- Building size recommendation:
650m² including offices, birthday rooms, bathrooms, cafeteria
-

Capacity:
60 users per hour

CLIP 'N CLIMB AREA INCLUDES

- ✓ 8 Challenges
- ✓ Harnesses
- ✓ Helmets
- ✓ TrueBlue
- ✓ Design
- ✓ Project Management
- ✓ Installation

TESTIMONIALS

PAWAN PARBHU – Director of flux freestyle Jumping

« Designing a park with **Fun Spot** for us was a huge benefit. A lot of the other designs that we had seen from other manufacturers in the industry were very regimented and I think we genuinely saw a third to forty percent increase in the potential capacity... »

« The colours and the graphics in our park were really important to us. We really wanted to open a park with a solid, strong brand so people recognized who we were and didn't associate us with other parks and for us the colours and the graphics were completely bespoke process. We took a lot of time to try and create what we wanted and **Fun Spot** were happy to sort of revise edits over and over and over until we were completely happy with a look and fell of the space. »

RICHARD SIMPSON – Managing director of Gravity force

« My advice for anyone who's looking to set up their own park, and are considering different manufacturer is you can't beat a supplier like **Fun Spot** who have such a great track record. They are genuine experts in their field. »

« Fun Spot provides us with great quality equipment which is important for two main reasons. Safety being the first. (...) Also ongoing maintenance costs (...) – when you buy quality it means that the replacements don't need to be done as often and we are able to keep those maintenance costs to minimum »

« We see them (Fun Spot) as a partner rather than a supplier who helped us get the park right »

CHRIS ADKINS – Owner, Servier Air

« **Fun Spot** was the only choice for us to challenge our local trampoline competition. **Fun Spot** allowed us the option to fully customize and equip our park with the latest technology. Not only did we get a beautiful park, but the **Fun Spot** team made the process painless in every phase of our build. »

JEREMY HALL - Director, Rebound UK

"Fun Spot did everything to perfection! I can't tell you how comforting it was to know that my questions would be answered within 24 hours. My park has been open for some time now, and I cannot say enough great things about the build quality. The manufactured structure and softer components are beautiful and reliable. I honestly can say that Fun Spot made my park better than I could have ever imagined."

DUSTIN PELLETIER - Owner, Big Air Spartanburg

"When we chose Fun Spot, we chose American made parts and labour. It was a breath of fresh air to know that I was their top priority from start to finish. Building a park can be stressful, but Fun Spot made it, well - fun and exciting. I've started a lifelong relationship with everyone that helped with our park."

DARREN HEDGES - Director of Air Hop in UK, Germany and Sweden

"We had a trampoline that was damaged. I called up Fun Spot on a Wednesday afternoon, they made the trampoline that evening, shipped it the next day, and by Friday lunch time it was fitted and repaired."

BETHANNE BROWNING - Owner of The Factory

"Fun Spot sent a trainer to help me as I opened this first park. I really didn't know what to expect and they sent someone to help me. She helped me train my staff and just kind of showed me how to run a trampoline park - every aspect of it. That was very, very helpful when you are starting out in this industry."
